Commissioner for Patents

The amendment remarks page 5 indicate that claims 25 - 43 are actively being pursued, whereas amendment page 6 states that only allowed claims 25 - 32 are remaining. The claims portion presents claims 33 - 43 in original form however no arguments requesting reconsideration are presented. Therefore the Examiner is requesting applicants to definitively indicate which claims are currently active and if rejected to provide a basis for a reconsideration of the current rejection lodged.

A response period of ONE MONTH is extended in which to remedy the defect.
